Instructions for Setting Up Your Account & Accessing Information

The Coalition for Children's Behavioral Health is excited to share that a new **Members Area** has been designed on the CCBH website for our members to access exclusive content, engage in workgroup discussions, view a directory of fellow members, and more. Follow the steps below and set up your account today! We promise it is a quick and simple process.

Set Up Your Account:

Head over to CCBHNY.ORG and click the Log In button in the top right corner.

The first time you're there, complete the signup form and click Submit. A CCBH staff person will review and approve your account.

Once your account is approved (which can take some time, your patience is appreciated), you'll receive an email from "no-reply@wixsiteautomations.com" with a verification code to confirm your account.

Return to the login page to enter the confirmation code and click Confirm & Sign Up.

That's it! Whenever you come back to the log in page after this, you'll see "Already a member?" and just click "Log In" next to it – there's no need to fill out the form again.

Once Logged In:

Start by heading to our **Members Start Here** forum thread to learn more about the features available. Here's how:

- Click the dropdown arrow in the top right corner of the screen and click **Forum**.
- Click the **Members Start Here** thread and read through the various topics included to learn more about the new discussion groups, forums, and more.

Think of the Forum as a membership-wide discussion board where you can pose questions and start discussions with colleagues, find information and Coalition materials, and see timely updates.

The Groups mirror our current provider groups and are an opportunity to communicate with a more targeted subset of members. If you would like to see additional groups offered, just let us know!

Quick Links:

When you're logged in, you'll see a footer on every page of the CCBH website with links to the Groups, Forum, and Directory for quick access to the interactive pieces of the Member Area.
